|-------|----------|---------------------------------|-----------------|
| CROP  | MATURITY | REGION                          | CLASS NAME      |
| Wheat | Medium   | Northern, Montana,<br>Northwest | Hard Red Spring |

## STRENGTH AND MANAGEMENT

- Broad Adaptability and Excellent Yield Potential
- Excellent Protein Content
- Excellent Standability

| CHARACTERISTICS                        |        | PEST & DISEASE RESISTANCE      |   |
|----------------------------------------|--------|--------------------------------|---|
| Herbicide tolerance                    |        | Bacterial leaf streak          | 6 |
| Maturity group                         | Medium | Fusarium head blight<br>(scab) | 6 |
| Planting rate                          | Medium | Hessian fly                    | 2 |
| Head type                              | Awned  | Leaf rust                      | 7 |
| Yield potential                        | 1      | Tan spot                       | 8 |
| Plant variety protection               | Yes    | Wheat stem sawfly              | 6 |
| Limited use license agreement required | Yes    | Yellow (stripe) rust           | 4 |
| Crop system                            | IR,DR  |                                |   |
| Patent protection                      | Yes    |                                |   |
| New product                            | No     |                                |   |
| Protein content                        | 2      |                                |   |
| Fusarium head blight (scab)            | 6      |                                |   |
| Standability                           | 2      |                                |   |
| Yellow (stripe) rust                   | 4      |                                |   |
